## APPLICABILITY/ACCOUNTABILITY

---

This policy applies to University of Central Florida employees while they are acting in the course and scope of their employment.

The university has a vital interest in protecting the health and safety of its students, faculty, staff, and visitors. Accordingly, the university works constantly to identify, mitigate, and make every effort to eliminate potential hazards in the employee's work environment on campus. Despite these efforts, employees may be injured or become ill due to the conditions of their job, or be involved in accidents while working on campus or on official university business. As job-related injuries or illnesses are not covered under the State Group Insurance Plan, it is imperative that employees who sustain job-related injuries or illnesses, and their supervisors, follow the procedures set forth herein.
